

Statement of compliance with EU Directive 2002 / 95 / EC (RoHS)

Tramo-ETV AB hereby warrants, that all products supplied by Tramo-ETV AB do not contain the Hazardous Substances as described by the EU Directive 2002 / 95 / EC

Or, if present,

are below the following treshold concentration levels as defined in compliance with Directive 2002 / 95 / EU by the commision decision og August 18, 2005 (2005 / 618 / EC)

Lead	< 0,1 weight %
Mercury	< 0,1 weight %
Cadmium	< 0,01 weight %
Hexavalent Chromium	< 0,1 weight %
Polybrominated bihenyls (PBB)	< 0,1 weight %
Polybrominated diphenys ethers (PBDE)	< 0,1 weight %

Those maximum concentration values are defined by weight in homogenous materials.

In general we are total avoiding using all these materials listed in the RoHS directive whenever possible.

When requested by customers we deliver products not only to comply to the above threshold concentrations but products made from only raw material each complying to EU directive 2002 / 95 / EC (Rohs)
